**Subject:** Questions about Draft Guidelines

What sort of technical assistance (p.4 Planning Guidelines) is envisioned?

If up to 25% of \$ may be allocated for planning, then will only approx. \$52.5m be available for implementation rather than the whole \$70m?

It would be good to refer readers of the Planning Guidelines to the Project Guidelines for greater clarification of the types of projects to consider in the planning process.

Please put the PowerPoint presentation on your Web site very soon. Thanks so much.
